April 18th 2014

We only arrived yesterday and already we have the feeling that we saw so many things! I appreciated particularly the extremely warm reception and the kindness of everybody here. I appreciated the organization of the company - the professionalism of all of the staff and the nice commodities you built in a such isolated place. You have to continue indefinitely in order to increase the surface in culture. Please keep pieces of wildness, as you already began! Maintain biodiversity for pollination plants, all the flora and fauna mainly also ... for you! The human and nature are interesting because we are it!

Terima kasih for everything! I hope to be able to come back soon and to stay with all of you for a longer time. I leave here, my friend, this small tree I planted with you.

Terima kasih!  
Gilles

*We only arrived yesterday and already we have the feeling that we saw so many things !*

*I appreciated a lot particularly the extremely warm full reception and the kindness of everybody here.*

*I appreciated a lot organization of this company, the professionalism of all the staff and the nice commodities you built in a such isolated place. You have to continue in maybe producing more but without indefinitely increasing the surface in culture. Please keep pieces of wildness, as you already begun! Maintain biodiversity for pollination plants, all the flora and fauna mainly also ... for you! The human needs nature and biodiversity because we are it !*

*Terima Kasih for every things!! Hope to be able to come back soon and be stay with all of you for a longer time.*

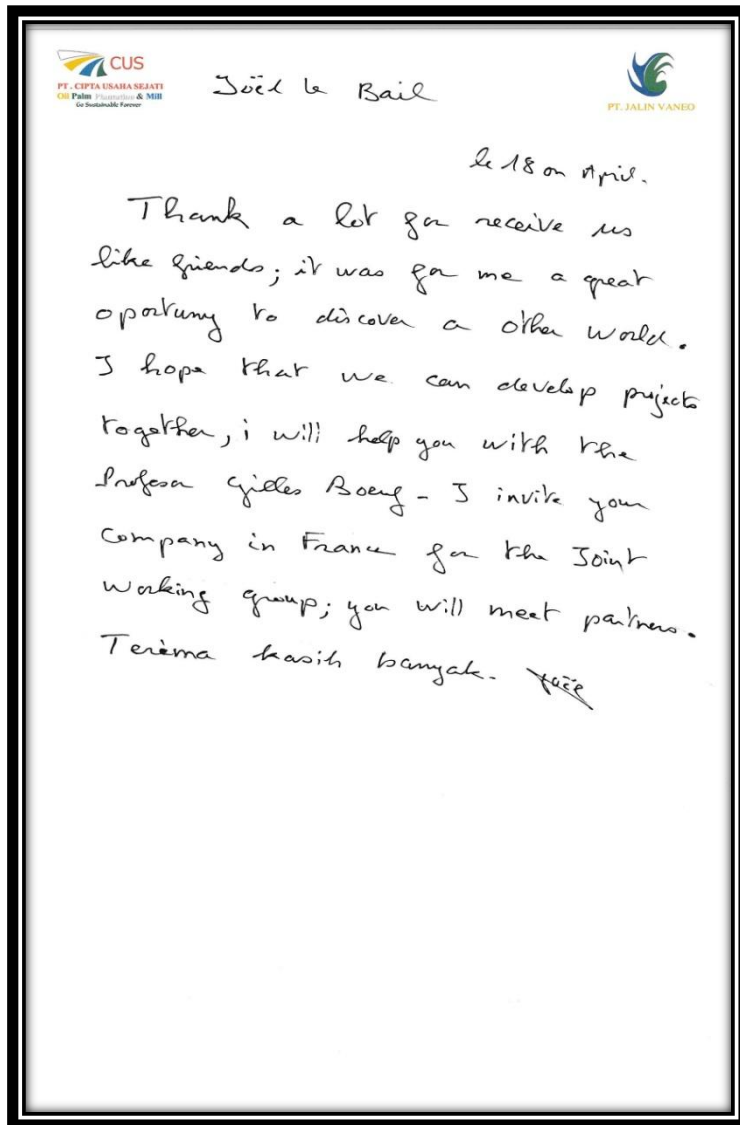

*I leave here , my friend, this small tree I planted with you.*

*Terima kasih !!*

 PT. JALIN VANELO

Rara kali ini saya berkunjung ke PT CUS di Kayong Utara tapi sangat berkesan karena selain usaha sawit yang dilakukan di sini sangat pertumbuhan ekonomi nasional khususnya pertumbuhan investasi di Kalbar, tapi juga konservasi fauna dan flora sangat menarik selain bermanfaat untuk penelitian di bidang ilmu pengetahuan juga sangat menarik sebagai obyek wisata. Dapat dijadikan wadah untuk memperkenalkan Kalbar ke berbagai belahan dunia secara internasional tapi juga untuk memperkenalkan PT CUS sendiri (promosi) tentang kebun sawit PT CUS sehingga merupakan nilai tambah bagi PT CUS sendiri. Kerjasama antara Untan - PT CUS dan para ilmuwan dari Perancis merupakan moment yang sangat penting yang ke depan semoga tetap berlanjut.
